

# WRD INAUGURAL GROUNDWATER ACADEMY

“DISCOVER THE VITAL RESOURCE BENEATH YOUR FEET”

The Groundwater Academy Program equips elected officials with a comprehensive understanding of groundwater management and conservation. Gain valuable insights through site visits, engaging panel sessions, and guest speakers. Participants will receive a Certificate of Completion, recognizing their commitment to safeguarding groundwater resources.

## PROGRAM HIGHLIGHTS:

- Invited participants include city council members, city managers, public works directors, county partners, and legislative and field staff from federal, state, and county levels.
- Site Visits include: Los Angeles County Sanitation Districts of San Jose Creek Water Reclamation Plant, Albert Robles Center for Water Recycling and Environmental Learning (ARC), and Los Angeles County Public Works Spreading Grounds.

**BEGINNING APRIL 26**

## WHY PARTICIPATE?

- **Enhance Decision-Making:** Acquire the knowledge and tools necessary to make informed choices regarding groundwater management in your communities.
- **Network with Experts:** Connect with leading professionals, industry experts, and policymakers, building valuable relationships for future collaborations.
- **Drive Sustainable Development:** Develop practical strategies to protect and preserve our vital groundwater resources for future generations.
- **Receive a Certificate of Recognition,** acknowledging your commitment to groundwater stewardship.

**REGISTER TODAY**

**WRD.ORG/GWACADEMY**

Together, let's create a sustainable future for our groundwater resources! Don't miss this unique opportunity to become a champion for water sustainability in your community!
